DESSERT CAFE

Greetings, coffee lovers! I'm the Resident Coffee Farmer and Curator of Coffee Experiences at **P.U. Dingding**. Growing up in the lush jungles of Kodagu, I developed a deep love for wildlife and everything it has to offer. But the thing that's closest to my heart? Coffee.

To me, coffee isn't just a beverage; it's a story. A story of the land and its people. The real magic is in watching berries ripen under the warm sun, carefully harvesting them and transforming them into rich, aromatic beans. When I'm not tending to my coffee plants, I experiment with different roasting techniques and brewing methods. Every step deepens my connection to coffee, and I can't wait to share that passion with you! That's why I'm here at P.U. Dingding – to bring my plantation-grown coffee to your table.

At P.U. Dingding, we invite you to savour the flavours, embrace the aromas and immerse yourself in the stories behind each brew. So, whether you're a coffee aficionado or a casual sipper, let's celebrate the journey of every bean and create unforgettable moments with every sip.

Yours sincerely,
Aiyappa KT (*aka Cuphead*)

P.S. The magic ingredient? Authenticity. Our coffee beans, both Robusta and Arabica, are sourced from a single origin shade-grown coffee plantations of Kodagu, Karnataka, India, at an altitude of 1000-1170 meters above Mean Sea Level. After being nurtured for a year, the beans are then hand-harvested, washed, cured, and roasted. We never use any adulterants, ensuring you get the best cup of coffee every time.
